Vpis v 2. letnik dodiplomskega programa.	Enrolment in the second year of the undergraduate study.					
Vsebina:	Content (Syllabus outline):					

Predmet vključuje tako teoretično predstavitev didaktičnih in organizacijskih dejavnikov varne vadbe kot praktično pridobivanje spretnosti pri vodenju vadbe različnih ciljnih skupin.

Temeljna vsebinska področja:

- Osnovni didaktični pojmi in njihove klasifikacije ter značilnosti: cilji, vsebine, metode poučevanja, dejavnosti kineziologa, dejavnosti vadečega, oblike vadbe, didaktična načela, vadbeno okolje, vadbeni pripomočki.
- Didaktični in organizacijski vidiki načrtovanja in izvedbe vadbe.
- Individualizacija in diferenciacija vadbe.
- Subjektivni in objektivni vidiki varnosti. Poklicna odgovornost kineziologa.

The subject includes theoretical presentations of didactic and organizational factors of safe exercising and practical acquisition of skills for conducting training of different target groups.

The basic areas:

- Basic didactic concepts and their classification and characteristics: objectives, content, teaching methods, activities of trainer, activities of athletes, forms of training, didactic principles, exercise environment, exercise devices.
- Didactic and organizational aspects of planning and implementation of training.
- Individualization and differentiation of training.
- Subjective and objective aspects of safety. Professional responsibility.

Temeljni literatura in viri / Readings:

Cilji in kompetence:

Pri predmetu Vodenje športne vadbe študenti dobijo temeljna teoretična in praktična didaktična znanja in organizacijske spretnosti za samostojno vodenje vadbe različnih ciljnih skupin. Spoznajo različne dejavnike varne in odgovorne vadbe (ustreznost načrtovanja, dejavniki tveganja pri organizaciji vadbe, ustrezena komunikacija, poklicna odgovornost).

Kompetence:

- načrtovanje in varna izvedba vadbe glede na njen cilj;
- učinkovita uporaba različnih komunikacijskih spretnosti, organizacijskih prijemov, IKT in individualnih pristopov glede na potrebe posameznikov ali skupin

Objectives and competences:

In the subject Management of sports training students receive basic theoretical and practical didactic and organizational skills for independent implementation of training of different target groups. They learn about the safe and responsible exercise (adequacy of planning, risk factors, proper communication, professional responsibility).

Competences:

- planning and organizing safe training based on their target;
- efficient use of different communication skills, organisational aspects of training, ICT and individualisation and differentiation

<ul style="list-style-type: none"> – kritično ovrednotenje problemov vadbe (npr. dobra/slaba organizacija, strah, dotik, zasebnost, varnost, profesionalnost ...). 	<p>based on needs of individual athlete or different groups;</p> <ul style="list-style-type: none"> – critical evaluation of the training problems (e. g. good/bad organization, fear, contact, privacy, cooperation, safety, professionalism ...).

Predvideni študijski rezultati:

Znanje in razumevanje:

- Znanje o izboru ustreznih didaktičnih korakov, učnih metod, oblik, pripomočkov, IKT, obremenitve in pedagoških strategij glede na ciljnost in učinkovitost vadbe.
- Razumevanje potreb vadečih in ključnih kompetenc kineziologa za učinkovito pripravo in vodenje vadbenega procesa.
- Razumevanje dejavnikov varnega vadbenega okolja in odgovornosti lastnika objekta/izvajalca vadbe/vadečega za izpeljavo varne vadbe.

Intended learning outcomes:

Knowledge and understanding:

- Knowledge about selection of relevant didactic steps, teaching methods, forms, tools, ICT, training intensities and pedagogical strategies based on the target and effectiveness of training.
- Understanding the needs of athletes and the importance of the key competences for effective planning and leading of training process.
- Understanding the factors of a safe training environment and owner's of facilities, coach's/ trainer's and athlete's responsibility for safe exercising.

Metode poučevanja in učenja:

Predavanja, vaje, igra vlog, samorefleksija, osebna mapa študenta.

Learning and teaching methods:

Lectures, exercises, role-playing, self-reflection, student's portfolio.
